The Dark Side of Globalization?

The 14th Annual Rights & Responsibilities of Institutional Investors will again be held in Amsterdam and co-hosted by Institutional Investor and Kessler Topaz Meltzer & Check LLP. Many of the most pressing issues for engaged investors and active shareholders covered in this day and a half agenda will consider the ways that senior management, including investment, legal and compliance officers from European and, increasingly, North American, Middle Eastern, and Asian public pension, insurance funds and mutual fund companies, are paving a path forward to meet their fiduciary obligations and engagement goals.
